

PYP PROGRAMME OF INQUIRY

Learning through inquiry, concepts and action

KG1 - Grade 5 | 2026-2027

Stanley International School's Programme of Inquiry provides a broad, balanced and connected learning journey. Across six transdisciplinary themes, students explore significant ideas, make connections across subjects, develop conceptual understanding and use their learning to take meaningful action.

Our six transdisciplinary themes

Who we are	Where we are in place and time	How we express ourselves	How the world works	How we organize ourselves	Sharing the planet
------------	--------------------------------	--------------------------	---------------------	---------------------------	--------------------

A snapshot of inquiry across the school

KG1	Me, You and Us Our places, our stories Ways to express Patterns all around us Working together Caring for living things
KG2	Healthy me Journeys and Places Stories in many forms Materials at work Our community Sharing our environment
Grade 1	Feelings, Friendship and Belonging Then and Now Signs, Symbols and Meaning Cycles in Earth and Sky Needs, Wants and Exchange Every Drop Connects Us
Grade 2	Connected for Health People, Places and Change Creating for an Audience Forces in Action Voice, Choice and Community The Web of Life
Grade 3	Growing Through Challenge Moving Stories Stories That Shape Culture Energy in Motion From Resource to Consumer Our Shared Resources
Grade 4	Identity, Values and Well-being Civilizations and Their Legacies Behind the Message Our Dynamic Earth How Economies Connect Us Pathways to Peace and Sustainability
Grade 5	The Power of Agency Exploration, Exchange and Impact Voices for Change Innovation and Consequences Power, Governance and Participation Taking Action for a Shared Future

FROM THINKING TO MAKING

Inquiry encourages learners to ask questions, investigate, create, reflect and act. Grade 5 culminates in the PYP Exhibition, giving students an opportunity to explore a significant issue and take evidence-informed action.
